

10 CFR 851 Work Group Status Overview

- **Accomplishments:**
 1. March 2012. 10 CFR 851 Workshop was held in conjunction with the 2012 Chemical Management Workshop.
 2. Communication tools to enhance 10 CFR 851 Worker Safety and Health Program (WSHP) compliance updated: Requirements checklist distributed across DOE complex and on the 10 CFR 851 website; DOE Guide 440.1-1B to include technical clarifications.

- **Near Term Goals/Activities:**
 1. Samples of acceptable WSHP programs (including ones based on ISM) will be posted on the 851 web site.
 2. Teaming of HS-10, NTC, NIEHS, HAMMER to: Develop and/or identify applicable training materials and methods for the recent promulgated Hazard Communication standard, DOE wide approach for this training, and approach for training reciprocity.
 3. 851 Work Group to review current progress and further develop task plans/mechanisms supporting compliance with 10 CFR 851.

- **Upcoming Meetings/Events:** To be scheduled

- **Issues/areas of concern:** None to report
